

Conditional Text Box for “Other” Radio Button Poll Choice

Last Updated - 11/23/2020

Note: This custom code is offered with no support from Pendo Customer Support.

Step 1: Create a guide that contains a radio button poll with exactly one choice containing the word “Other” and an Open Text Poll:

What is your role?

☐ Product Manager

☐ Designer

☐ Developer

☒ Other

Tell us more about your choice

Enter text here...

Submit

Step 2: Paste [this JavaScript](#) into the JavaScript tab within a custom code block module of the guide step from Step 1. **This code may impact other polls in the guide step**, so it’s advisable to always deploy this conditional block within its own guide step with no other polls present.

Step 3: Change Line 5 of the code in Step 2 to be the header text above your text box. In this example case, the text is “Tell us more about your choice” but you’ll need to modify that in the code to be the same as your text. This is case sensitive.
